

Turn Data into Decisions: The Foundation Finance Advantage for Law Firms

Insightful. Intuitive. Integrated.

In an increasingly complex and competitive legal market, effective decision-making is paramount. However, many law firms grapple with overwhelming financial data, scattered across multiple platforms, making it challenging to gain a holistic understanding and leverage their financial data to its fullest potential.

Foundation Finance helps law firms gather, understand and visualize their financial data quickly and easily by providing self-service business intelligence to attorneys, finance departments and pricing teams.

Streamline your firm's business intelligence and financial reporting objectives with Foundation Finance without disrupting your processes as it integrates with your existing systems including Clio, SharePoint, SurePoint, Elite 3E, iManage, Aderant, AWS, Juris, Intapp, Workday, Foundation Scoping and more.

"I'm excited about the amount of information that is now right at my fingertips and I love how easy the tool is to use."

Managing Partner

"In a matter of a few weeks the dashboard has already begun to save an incredible amount of time and money. Instead of endlessly building SQL queries for one-off reports, we are now able to focus on firm-level analysis [and] forecasts."
