

FOUNDATION

Insights + netdocuments®

# Foundation Insights + NetDocuments

Streamline Precedent Capture. Unlock Deal Intelligence.

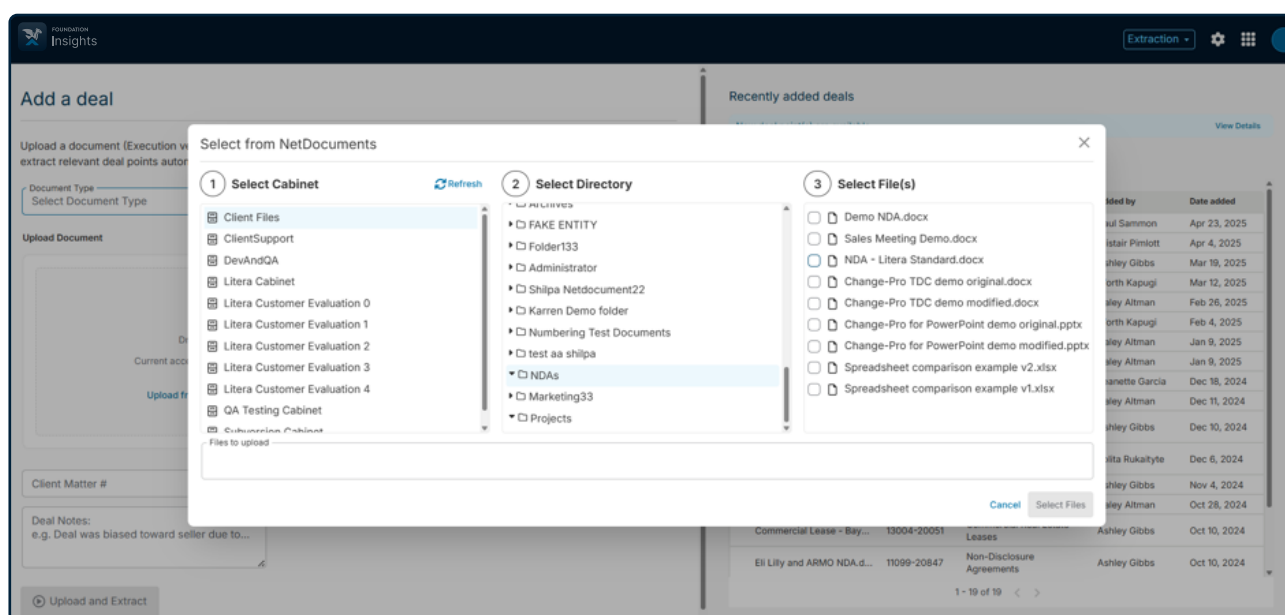

*Law firms increased their technology spending by*

**7.6%** *year-over-year in 2024*

[\[Source\]](#)

And with this increase comes a new mandate: simplify the tech stack to boost efficiency. Now with direct NetDocuments integration, Foundation Insights makes it easier than ever to identify, extract, and reuse valuable deal data—straight from your DMS.

Upload documents directly from NetDocuments into Foundation Insights—eliminating manual downloads, reducing friction, and accelerating the firm's ability to surface insights from executed agreements.

FOUNDATION

Insights + **netdocuments®**

#### **Faster Access to Precedents**

Quickly mine executed documents for deal terms, structures, and language—without leaving Foundation Insights. Accelerate precedent collection across practice groups.

#### **Seamless & Secure Integration**

Documents stay within existing NetDocs access controls and compliance framework, reducing risk and increasing user trust.

#### **More Strategic Use of Data**

Give lawyers and KM teams on-demand access to reliable deal insights that improve drafting, pricing, and client service. Quickly find relevant clauses and agreement examples.

#### **Smarter, More Scalable KM**

Transform high-value work product into structured data that supports lawyers, knowledge teams, and business professionals. Scale reuse of high-value documents.

#### **Simpler Uploads, Smarter Workflows**

Automatically fill in C/M# when uploading from NetDocuments — saving time, reducing errors, and making it easier for users to stay focused on high-value work.

## About Foundation Insights

Foundation Insights helps law firms structure and analyze their most valuable content—executed agreements—to unlock precedent intelligence at scale. With the new NetDocuments integration, it's easier than ever to turn documents into deal data.
