

Chat with Kira

Instant Insights Powered by Litera AI+

Kira's Generative AI (GenAI) chat feature provides instant, actionable insights from contracts and documents. Ask questions or type prompts in natural language, and Kira provides concise, contextually relevant answers with linked citations for full confidence and transparency.

Use Cases for Chatting with Kira

- 
M&A Due Diligence
 Analyze large sets of commercial contracts to identify key risks and summarize findings for due diligence reports.
- 
Corporate Governance
 Examine board minutes for references to litigation, financing, and other agreements that may impact transactions.
- 
Lease Review
 Review lease agreements for specific provisions and ensure compliance with client requirements.
- 
Local Counsel Engagement
 Summarize documents Kira has tagged as non-English and highlight key terms, expediting the review process before engaging international offices or local counsel.

Chatting with Kira helps legal teams accelerate diligence and contract reviews by:

- 
 Providing immediate, comprehensive insights about documents.
- 
 Enhancing review consistency and ensuring reliable analysis.
- 
 Assisting in drafting documents related to the contract being reviewed.

With Kira's chat feature, you can:

- 
 Ask Kira what looks risky and get recommendations, given the context of the transaction.
- 
 Review contracts in multiple languages, by simply writing the prompt in your preferred language.
- 
 Get a first draft of various documents, including responses to a client question, notices, and amendment language.
