

Litera Corporate Bundle for Drafting

Corporate legal departments spend hours formatting, proofreading, and comparing documents, instead of taking time to engage in true legal work.

The Litera Drafting Bundle streamlines the drafting workflow, saving legal professionals time and effort, eliminating drudgery, and empowering them to focus on value-add legal tasks.

Efficient Document Reviews

Deliver error-free documents with automatic detection and fixing of common issues.

Streamlined Comparisons

Create accurate final drafts with efficient document comparison and an easy-to-read redline.

Security and Compliance

Ensure the right people receive the right documents clean of risky metadata.

Technology to Enhance Your Document Drafting Workflow

LITERA Contract Companion

Contract Companion is a proofreading tool that leverages Artificial Intelligence to ensure documents meet organizational and regulatory standards.

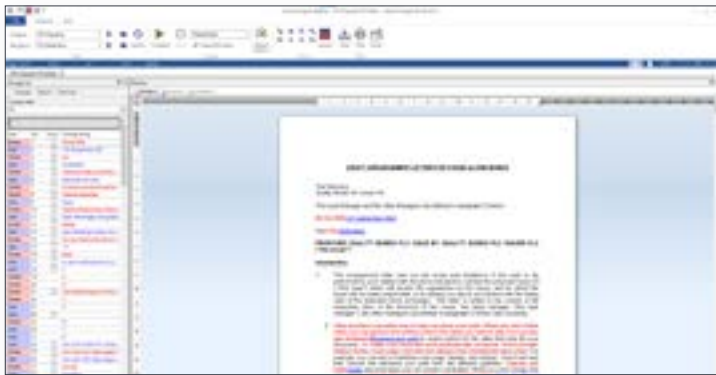

Gain the ability to automatically identify and review document issues in real time, improve document quality, and reduce the risk of errors, so you can have top-notch documents in no time.

LITERA DocXtools Companion

DocXtools Companion is a document repair tool that allows you to resolve document issues with one click.

Improve productivity and ensure document quality with an intuitive and user-friendly tool, reducing cleanup tasks from hours to minutes.

LITERA Compare

Litera Compare is a one-to-one document comparison for desktop and mobile that detects changes across any two documents in seconds.

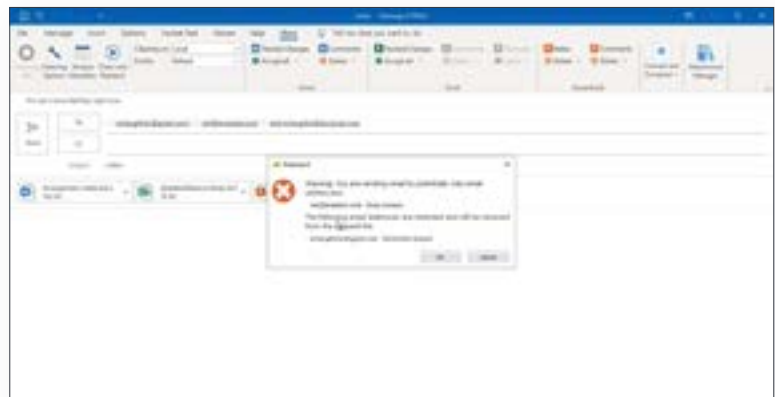

Enhance collaboration, mitigate the risk of missing crucial changes to documents, and reduce the complexity of comparing legal and business documents so you can get to a final draft in less time.

LITERA Metadact

Metadact is a metadata cleaning solution that scrubs metadata, track changes, comments, etc., from documents, offering security and efficiency.

Send the cleanest, most professional version of a document, and remove the risk of sharing sensitive information via email, all while enhancing secure collaboration.
