Litera One

Automate Legal Work from Draft to Deal in Microsoft 365—Now Embedded with Lito, Your Legal AI Agent

Law firms waste hundreds of hours each year on fragmented tech stacks and constant context-switching, lowering productivity and client service quality. Litera One, now powered by Lito—the only legal AI agent built on 30+ years of expertise—raises the bar for legal efficiency by unifying document drafting, review, and knowledge management in one cloud platform within Microsoft 365. The result: elevated workflows, next-level productivity, and measurable gains where lawyers work most.

Why Litera One?

By automating repetitive tasks in an intuitive interface, Litera One with Lito reduces context-switching and promotes focus.

As a cloud-based Office Add-in for Word and Outlook, Litera One is accessible across devices, including Macs. The integration of Litera tools, GenAI, Agentic AI, and firm systems, such as the DMS, allows for the delivery of real-time insights, empowering lawyers to focus on higher-value work that enhances profitability and client service.

Combat Fragmentation

Unify workflows from the practice and business of law in one interface in Word, Outlook, and Web, across devices.

Maximize Adoption and ROI

Save 2-10 hours per week with an integrated tech experience that requires minimal training.

Modernize Technology

Modernize your stack with Litera's lightweight Office Add-ins for Word and Outlook, designed for legal professionals.

Turn Knowledge Into Action

Leverage Lito's agentic AI to transform your legal work into real-time, context-aware, in-flow guidance that elevates intelligence, delivering smarter, faster, and more consistent legal work.

> *"Litera One consolidates multiple proven tools into a single interface that is easy to manage, fast to deploy, and light on systems resources. The built-in AI features add value without adding complexity."*
