

Litera's Solutions for Transactional Legal Work

Litera's solutions for legal teams in transactional practices— Kira, Transact, and Foundation Insights—are designed to revolutionize deal work and optimize client outcomes.

Embrace the power of AI, automation, and data-driven insights to stay ahead, reduce legal risks, and unlock greater growth and profitability.

Powered by AI. Designed for Collaboration.
Scalable to Your Largest Projects.

Kira is trusted by top global law firms to accelerate due diligence contract reviews with unparalleled accuracy.

Strategic Decision-making

Contextualize information for advice that aligns with clients' goals.

Increased Productivity

Automatically identify and analyze over 1,400 clauses and data points to accomplish more in less time while maintaining quality.

Concise Insights

Get essential overviews for quicker analysis with optional generative AI (GenAI) summarization.

Consistent, Reliable Analysis

Ensure consistency and accuracy at scale for faster reporting and more reliable outcomes.

One Platform To Better Manage Deals.

Transact empowers legal teams to securely oversee all aspects of corporate transactions. With a unified deal overview and enhanced organization, Transact delivers greater flexibility, speed, and certainty, fostering client trust.

Improved Collaboration

Centralize tasks and documents to ensure that the right people have real-time access to the right information, reducing errors and improving coordination.

Streamlined Signings

Automate the signature management process, minimizing delays, boosting accuracy, and enhancing client confidence.

Accelerated Closing Preparation

Quickly generate tailored closing sets and books, facilitating smoother closings and exceeding stakeholder expectations.

FOUNDATION
Insights

Unlock Your Firm's Experience.

Foundation Insights is the groundbreaking GenAI deal-point database giving firms a competitive edge in negotiations. Insights extracts critical deal points from your deal documents and compiles this data into an intuitive database, empowering you to advise clients and negotiate from a position of power.

Turn Your Experience into Client Value

by unlocking your firm experience data and answer complex questions like **'what's market'** in seconds.

Reduce Lift and Increasing Accuracy by eliminating manual document searches and instead quickly and accurately identifying deal trends with a 360° view of your matter deal point data.

Empower Attorneys by delivering real-time deal analytics on demand through an intuitive interface.

Unlock greater productivity and deeper insights with
Litera's solutions for transactional legal work.
