

Empowering Law Firms to Reach Their Full Talent Management and Workforce Potential

In the rapidly evolving legal landscape, law firms face several challenges ranging from complexities in managing performance, engagement, and career development to opaque hiring processes and incessant Continuing Legal Education (CLE) requirement revisions across varying jurisdictions. These challenges often lead to data silos, resulting in compliance and risk management issues, and inefficiencies in talent acquisition.

As the leading developer of talent management and workforce software for law firms, we are trusted by hundreds of firms across the NLJ 500.

Our unmatched industry experience in talent management and workforce software for law firms help clients dramatically enhance the efficiency, ease, and precision of recruiting, CLE tracking, learning management, and performance evaluations.

Litera presents three state-of-the-art solutions – CE Manager, Top Performance, and LawCruit – each designed to address the specific needs of law firms.
