

Womble Bond Dickinson Streamlines Operations and Improves Security with Litera's CAM

PROBLEM

In the midst of adopting cloud technologies, international law firm Womble Bond Dickinson identified a need to refine its data lifecycle management. Facing the dual challenges of ensuring data integrity and mitigating cyber threats, the firm recognized the urgent requirement for a solution that could deliver consistency, control, and security without hindering their transition to the cloud.

SOLUTION

Litera's CAM solution presented itself as the ideal platform to meet Womble Bond Dickinson's stringent demands. Offering robust lifecycle management, collaborative tools, and stringent data governance, CAM stood out with its centralized data oversight and comprehensive auditing features. It promised a smooth cloud migration path while prioritizing data security and regulatory compliance.

Key Advantages of CAM:

- **Streamlined Project Initiation:** Launch legal projects faster, bypassing complex setups. Tailored workspaces initiate a secure, efficient start.
- **Unified Vision:** CAM centralizes assets, offering a single-view platform to streamline legal operations.
- **Seamless Shifts:** Move data securely and effortlessly. CAM ensures integrity, continuity, and minimized disruption during data transitions.
- **Enhanced Decision-Making:** With CAM, you can transform complex data into clear insights. Use powerful analytics for strategic planning and performance optimization.
- **Robust Digital Safeguards:** Uphold the highest standards of data protection with CAM. Safeguard client data and adapt to evolving legal landscapes.

According to Tom Humberstone, IT Applications and Development Manager at Womble Bond Dickinson, "moving to the cloud presents challenges, especially for law firms needing to maintain control over their data. Tools like CAM help maintain data control while embracing cloud benefits."

CASE STUDY

RESULTS

Following the implementation of Litera’s CAM tool, Womble Bond Dickinson experienced significant improvements in its day-to-day operations and overall efficiency. The firm’s support processes evolved seamlessly, allowing for a smooth transition to the cloud without the need for extensive refactoring. Users benefited from enhanced collaboration features, shared workspaces, and intuitive templates, leading to increased productivity and satisfaction. Key features such as updated security on workspaces and the PowerDesktop license within CAM significantly improved data management and content migration processes. Moreover, CAM’s Service Desk empowered the firm to provide efficient support services, with granular options for role-based access and enhanced user empowerment models.

The implementation process was executed swiftly and successfully, with all components going live simultaneously to align with the firm’s cloud goals. Womble Bond Dickinson commended Litera for its seamless integration and the support provided throughout the implementation phase.

“Looking ahead, our plans involve leveraging CAM for Microsoft 365, Teams, and SharePoint integration. CAM’s support is crucial for enhancing collaboration and efficiency across platforms.”
